

To Ensure Every Student's High Learning Quality ~Reasonable Accommodation~

Kawachi Academy

Kawachi Academy hopes that each student will learn with peace of mind and develop 'the power to live' while developing their own strengths, and will steadily become independent in the future filled with dreams and hope. For this reason, the academy has a variety of accommodation in order to realize the rich learning that meets the needs of each student in daily lessons.

In 2016, 'The act of eliminating discrimination against persons with Disabilities' has been enforced. At the academy, we will continue to provide more detailed accommodation (reasonable accommodation) so that all students can learn and live in their own way, regardless of whether they are handicapped or not.

The act of eliminating discrimination against person with Disabilities

It is a law enacted and enforced aiming at a 'symbiotic society' where everyone respects each other with or without disabilities and lives together.

- ◇ Prohibition of unfair discriminatory treatment due to disability.
- ◇ Obligation to provide reasonable accommodation.

(National and local Government)

Reasonable Accommodation

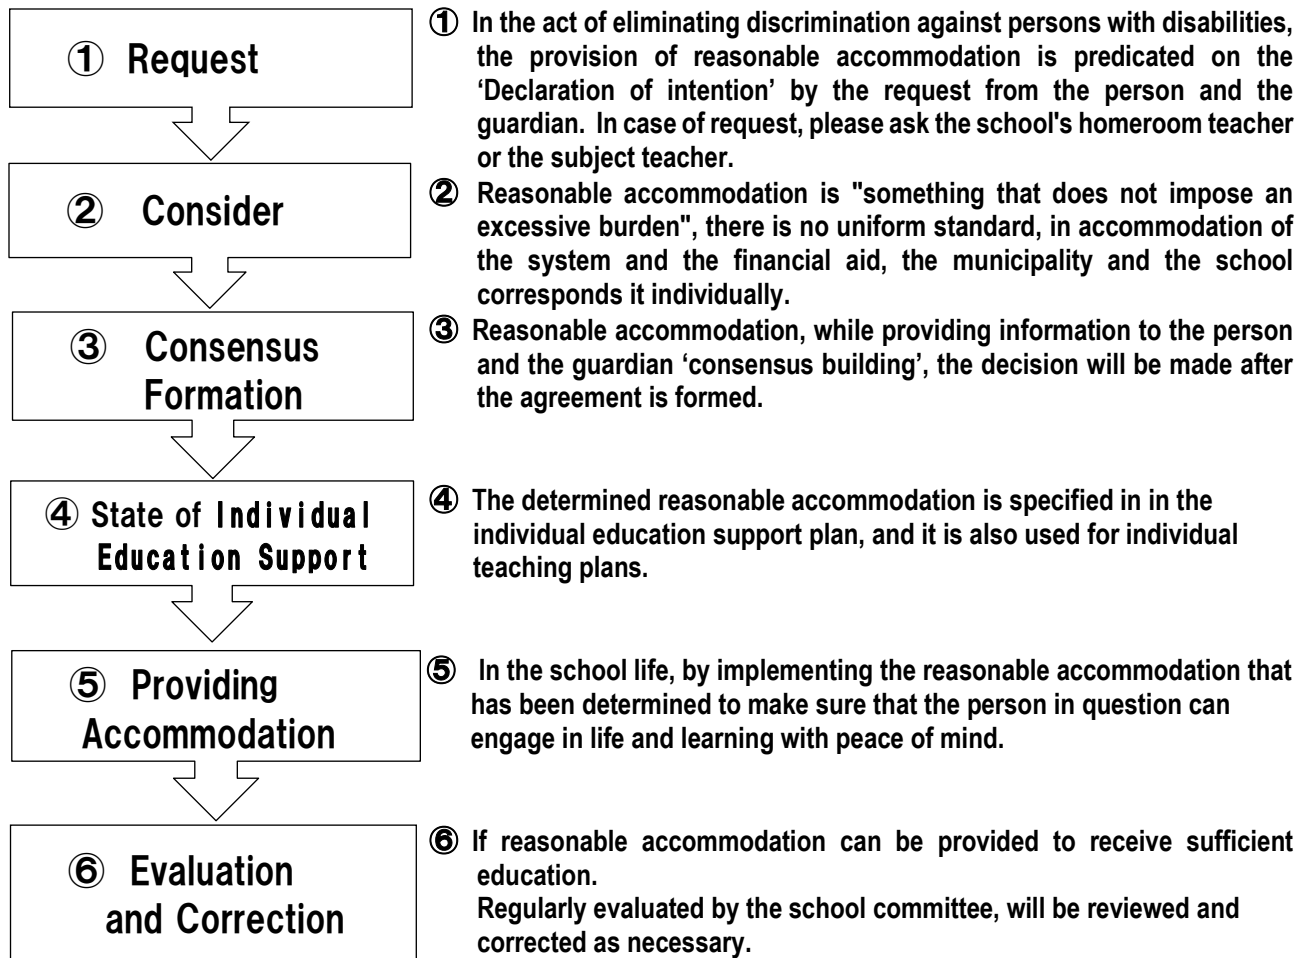

The following accommodations are taken to ensure that children with disabilities enjoy and exercise the right to receive equal education with other children.

- ◇ Town and school must make appropriate changes and adjustments.
- ◇ To provide what is required individually, depending on the situation of children with disabilities.

Examples of reasonable accommodation by town and school

- To arrange a support staff to assist in the movement and daily life.
- A learning support staff can be provided to support the learning side.
- Prepare digital materials and ICT [Information and Communication Technology] equipment.
- To secure a larger version and a Braille version of textbooks, materials, books, etc.
- Worksheets and the problem sentence of the test can be put into kana reading.
- To enlarge the character of the worksheets and test problem statement.
- To secure a place to cool down, etc.

Steps to Providing Reasonable Accommodation

Kawachi Academy aims to be 'a school that can realize the enjoyment of both learning together' based on the educational philosophy of Kawachi town, 'the school that guarantees high quality learning'. We will carefully follow up and support each and every student according to their needs while systematically conducting collaborative learning in regular classes and special support classes.

In addition, in order to ensure that students can realize high quality learning, the faculty members continue to conduct practical research on a daily basis to improve the qualitative skills of the class. If you have any concerns about your child's life or learning, we will discuss it with you, your child, the relevant organizations and the school. We will take the necessary care to help your child achieve better growth, independence and the realization of future dreams.

Any inquiries are welcomed. If you have any questions about your child's life or learning, please feel free to contact the school principal, the homeroom teacher or the subject teacher.
Thank you.
